EXPERIENCE

Brand Ambassador

10/2019 - Ongoing Leicester, United Kingdom

The De Montfort Marketing Department

- Promoted and enhanced the reputation of my university to prospective students and their given influencers through dealing professionally, accurately and empathetically with all prospective students.

Data Analyst - Internship

gscreen

07/2019 - 08/2019 London, United Kingdom

Europe's only independent, lab-backed CBD comparison resource. Putting Science before Sale.

- Created copious wireframes for the new gscreen website.
- Analysed market trends to direct more traffic towards gscreen.
- Optimised social media presence to cater to wider target audience.

Data Analyst - Internship

10x

05/2019 - 07/2019 London United Kingdom

10x is a consultancy firm that focuses on utilising Artificial Intelligence to bring WOW products to fruition.

- Worked with industry specialists to aid in the creation of the worlds first AI powered bar.
- Tested and utilised 10x's new and innovative lead generation platform in its nightly stage.

Specialist

Apple Inc.

09/2017 - 12/2017 London, United Kingdom

- Delivered optimal customer service through professionalism and extensive product knowledge.
- On launch date of the iPhone X, single handedly made the largest margin in sales for the designated store.

ACHIEVEMENTS

TechJams 2019

TechJams is a 2-day Hackathon that I created with a team for participants aged 13-15. Participants would come together, prototype solutions from the outlined scenarios and then pitch their ideas to industry leaders. The previous prize for the winning team was a tour of Facebook's HQ in Central London.
